Raleigh, NC 27603-1422

Re: Commissioning Reports

Dear Ms. Weseman:

This letter is in response to your presentation to the Board of Examiners for Engineers and Surveyors on December 9, 2004, at which time you asked the Board: "Do commissioning reports require a PE seal?"

The Board referred the issue to the Engineering Committee for consideration. At the January 13, 2005 regularly scheduled Board meeting the Engineering Committee recommended and the full Board concurred that the commissioning reports constitute the practice of engineering, and therefore, do require a Professional Engineer's seal.

If you have any questions, please contact this office.

For the Board,

Andrew L. Ritter
Executive Director
